International Conference on Computer Science and Information Technologies (CSIT-2023)

The 14th Biennial International Conference on Computer Science and Information Technologies (CSIT-2023) will be held in Yerevan, Armenia during September 25 – 29, 2023.

The conference has been held since 1997 and aims to present new results and new challenges facing the field of computer science and information technologies.

It intends to connect professionals from industry, business, government, academia, engineers, researchers and scientists.

The major topics include, but are not limited to the following:
Algorithms, Automata and Logic
Artificial Intelligence and Machine Learning
Cloud and High Performance Computing
Cognitive Algorithms and Models
Cryptography and Cyber-security
Design and Test
Discrete Mathematics and Combinatorial Analysis
Information Technologies Applications
Information Theory and Coding Theory
Distributed Systems
Big Data and IoT
Pattern Recognition and Image Processing
Telecommunication and Networking.

The conference program will include presentations and poster sessions, along with prominent keynote speakers and thematic workshops.

Submissions:
Authors are invited to submit the short version of the paper for publication. Submissions should be written in English. Experts will review all submitted papers and consider the criteria of originality, scientific merit and relevance to the conference topics. Accepted short version of the paper will be published (up to 4 pages in length) in the Conference Proceedings.

The authors of the selected papers will be invited to extend them for publication in the international journals, including "Informatica" (https://informatica.vu.lt) and "Pattern Recognition and Image Analysis" (https://www.springer.com/journal/11493):
